Bellevue, WA, Phone: *+1 (425) 395-9963*, Email: *eden.b.asipov@gmail.com*

Experience

Virgin Galactic

Technical Writer (Contract) | April 2025 – April 2026 (12 months)

- Authored Maintenance Task Cards and Production Acceptance Tests (PAT) for the company's suborbital spacecraft, ensuring strict compliance with aerospace safety standards.
- Developed clear, step-by-step procedures by interpreting 3DX CAD models, engine manuals, schematics, and blueprints.
- Collaborated with crew chiefs and technicians to capture and resolve "redlines," accurately integrating field modifications into the master documentation.

BizDriver.ai

Technical Writer and Editor | 2024 – 2025

- Created technical documents describing the AI Assistant tuning process, along with API documents, code samples, user guides, API & implementation guides, and troubleshooting guides for the company's GenAI product. I communicated closely with the engineers, product managers, and project managers to produce the documents.
- Provided editorial services to the company's customers, editing AI-generated content.

Amazon - Project Kuiper (Leo)

Satellite Technician II – Project Kuiper Satellite Production (Full-time)
October 2023 – April 2025

- As part of my job, I developed technical documentation for satellite parts and components and documented internal procedures, as well as internal software, including APIs and UX.
- Collaborated with engineers and technical teams to document complex systems and workflows.

- Gained real-world insights into satellite manufacturing and space simulation testing.

SpaceX - Starlink, Redmond, WA

DRA & Process Documentation (Full-time)
April 2023 – October 2023

- Created and managed technical documentation related to certification and compliance.
- Collaborated closely with engineering teams to document processes and improve documentation workflows.
- Worked in a fast-paced, innovative environment, learning from top-tier engineers and technicians.

TheWatchdog Newspaper (thewatchdogonline.com) | 2021 – 2022

Section Editor for the campus newspaper at Bellevue College

- Worked as the section editor for *Opinion, Arts & Features, News, and Sports* sections.
- Edited articles by other reporters for clarity, accuracy, and adherence to AP Style.

Education

Bellevue College, Bellevue, WA
Studied English and Communications for an Associate Degree (2021-2022)

Georgia Institute of Technology
Electrical Engineering and Computer Science (took a number of technical courses relevant to my job during my employment at SpaceX and Amazon) (2023- now)

Skills

- Extensive experience in writing and reviewing technical documentation, including SOPs, CAD drawings, user manuals, assembly checklists, work instructions, and schematics.
- Strong ability to communicate complex technical concepts clearly and concisely.
- Expertise in editing, proofreading, and ensuring documentation adheres to industry standards.
- Proficient in Confluence, JIRA, WordPress, Google Workspace, and Microsoft Office, with a strong aptitude for navigating proprietary internal software and technical writing workflows.
